The Eyes Have It & Tony and the Beetle

## The Eyes Have It & Tony and the Beetle By Philip K. Dick (1928 - 1982)

Aliens have invaded the earth! Horrible one celled creatures disguised as normal human beings! Well, at least that is what it seems to the author. Yes, *The Eyes Have It* is a whimsical story, making gentle fun of certain writing styles, but only a topflight science-fictionist like Philip Dick, we thought, could have written this story, in just this way. *Tony and the Beetles* takes place far in the future when Earth's enormous colonial empire is well established but the question is, how long can it last? 10 year old Tony grows up fast when history catches up with the human race. A sobering look at human history ... and our probable future. Two very different stories but both entertaining. (Summary by the magazine editor and Phil Chenevert)

Total running time: 00:42:59; read by Phil Chenevert. Dedicated Proof-Listener: DaveC. Meta-Coordinator/Cataloging: Phil Chenevert.
